

POTATO CHIP POLITICIANS:

Some Flaky Civic Rhetoric

Sam: (Yawning) I'm bored of this shit!

Tim: Yeah, I hear you. I guess most Americans are hoping
Jesus will come again ta set things right.

Ted: (Spitting) Don't count on it. Bullshit is built into the fabric
of our DNA.

Kris: (Snapping her fingers). That can be fixed! Perhaps it is time
for genetic editing?

Terri: (Rolling her eyeballs and about to speak, then deciding
silence is best.)
