

# **TRUMP POEM:**

**A rant about the worst president in US history**

An abstract background featuring a mix of yellow, brown, and purple splatters and textures. A small, dark fly is visible on the left side, near the center.

America's dick  
has a giant lump  
manifesting as a tumor  
in the shape of Donald Trump.

It tries to measure up  
to great leaders of the past  
but by all yardsticks  
the only thing it approximates  
are his small, selfish hands.

Money rules  
& self-serving plutocracy stands.

Make Amerika grate again?  
Rigged votes say "okay".

Yet how much blood  
will stain our land before he goes away?

**Sam:** So why did Noam Chomsky call Trump a distraction?

**Ted:** Isn't it obvious? His shenanigans obfuscate our attention away from the real news -  
the systematic dismantling of democracy and the creation of a two-tiered plutocracy.

**Kris:** Sounds like ancient Rome!

**Ted:** Yes, in many ways. And like Rome, it shall end in ruins.
