

WHICH MASTER?

Some Thoughts about Spiritual Teachers

Which guru
do you want to see —

The one flying a helicopter
driving a Mercedes Benz AMG
& smiling coyly on TV?

Or the one meditating deeply
in union with Shiva
while embracing new discoveries?

Which spiritual teacher seems more true —

The one selling sacred trinkets
& marketing pseudo-scientific beliefs?

Or the one who remains in an unseen sanctum —
intent on Only One Thing?

Perhaps what we see
depends on how we interpret the actions of
each person crazy enough to teach.
