**Automobiles argh an illicit affair with power & speed -
a rampant form ah industrial pornography.**

**Their tail pipes piss out toxins
& engines suck up gas.**

**Kreating roads ta nowhere & inciting urban sprawl
they transfirm land inta asphalt, billboards & glass.**

**Will our addiction fer petroleum b cured
before we choke, wheeze, & gasp?**

**Automobiles make it far too eazy
ta screw this planet's ass.**

Anrgi: Our whole civilization can be likened to a huge, gas-guzzling car.

Soo: Yep, but such excessive consumption can't last.

Ellesha: In some way or other humans have always been at the edge of disaster.

Jules: Perhaps, but I need a beer . . . Can't we talk about something "fun" for a change? Thinking about the world makes me damn depressed!

Philgra: We've got'ta rise above our personal feelings and do what is good for the planet!
