

**EPHINANY FOR THE
BLESSED VIRGINS:**
Reflections on Sex and Salvation

What value is virginity
If it isn't worshipped?
The French understood this by saying,
"l'amour, c'est délicieux"

The five holes to infinity
Are gateways to amazing bliss!
The earth of our groins aspire
For the top directory of each orifice.

Find the Maidenhead of Salvation
& forget all avarice.
Our ero-points are sacred
With countless data bits.

Feel the tremors of ecstasy!
& purge all sub-directory roots.

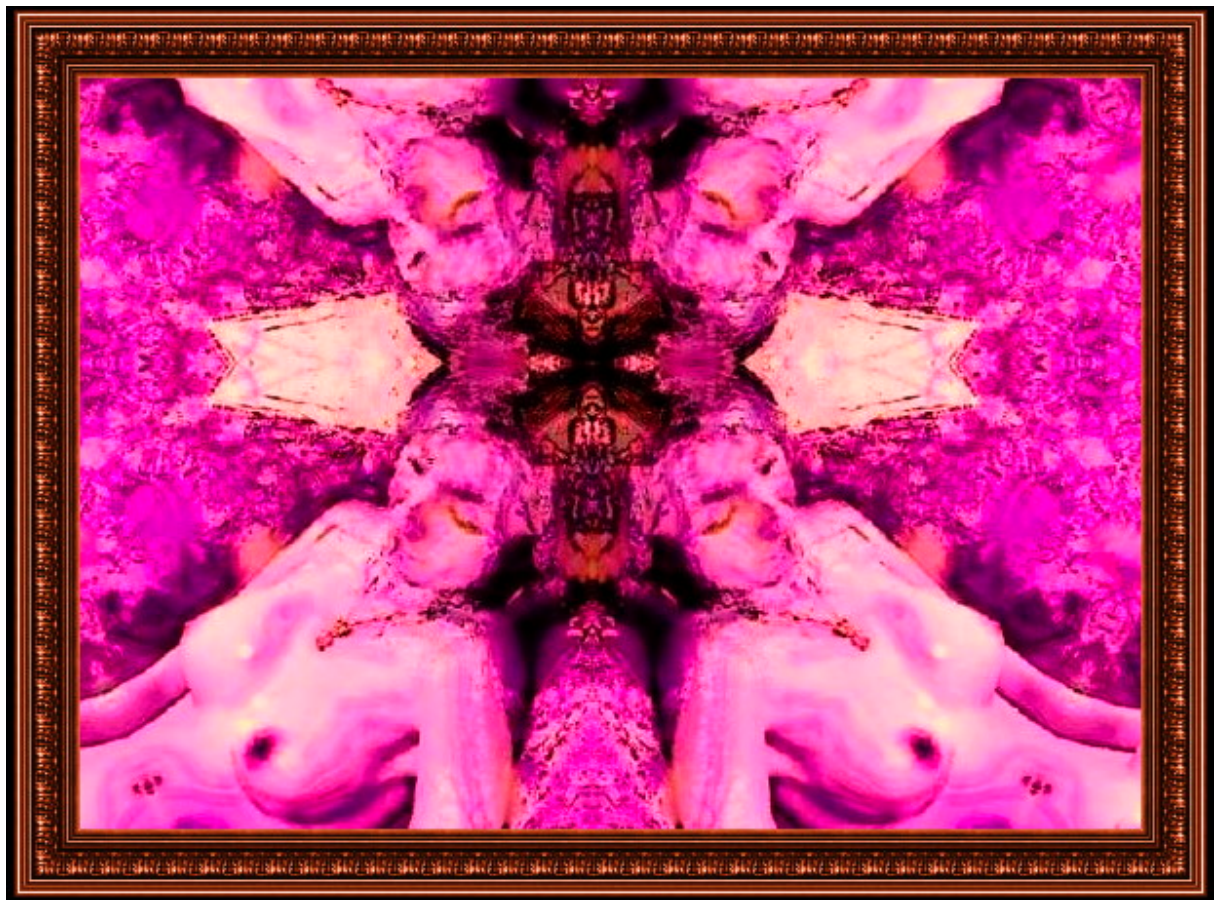

Hail to the Virtual Virgins
Speeding though cyberspace!
Hail to those shunning digital satisfaction
Knowing Love is Analog Grace.

When we emerge as photons
At the end of a data stream
Other voices like mine
Will declare –
"Ma chérie! Arec toi, j'atteint l'extase!"

Tim : (shaking his head) I think this bloke has gone over the top.

Miok : Yeah, and I can't really figure out whether he's straight or gay.

Cantara : Does it matter? He appreciates beauty and isn't uptight about sex.

Chris : Well, I wish he wouldn't use religious metaphors. Sex is just sex.
To speak of it as "salvation" is blasphemy.

Cantara : Who knows? Salvation might come in mysterious ways. In one sense, it's a breaking of logic. Too many people in our society are straight-jacketed by rationality. Logic can be like a tyrant when followed to an extreme.

Miok : Cantara is right. In some ways civilizations just might be saved if we became less logical.
