

*How Weird: Out of the Box of Expectations*

## **NORMAL REALITY:**

Some thoughts regarding human awareness

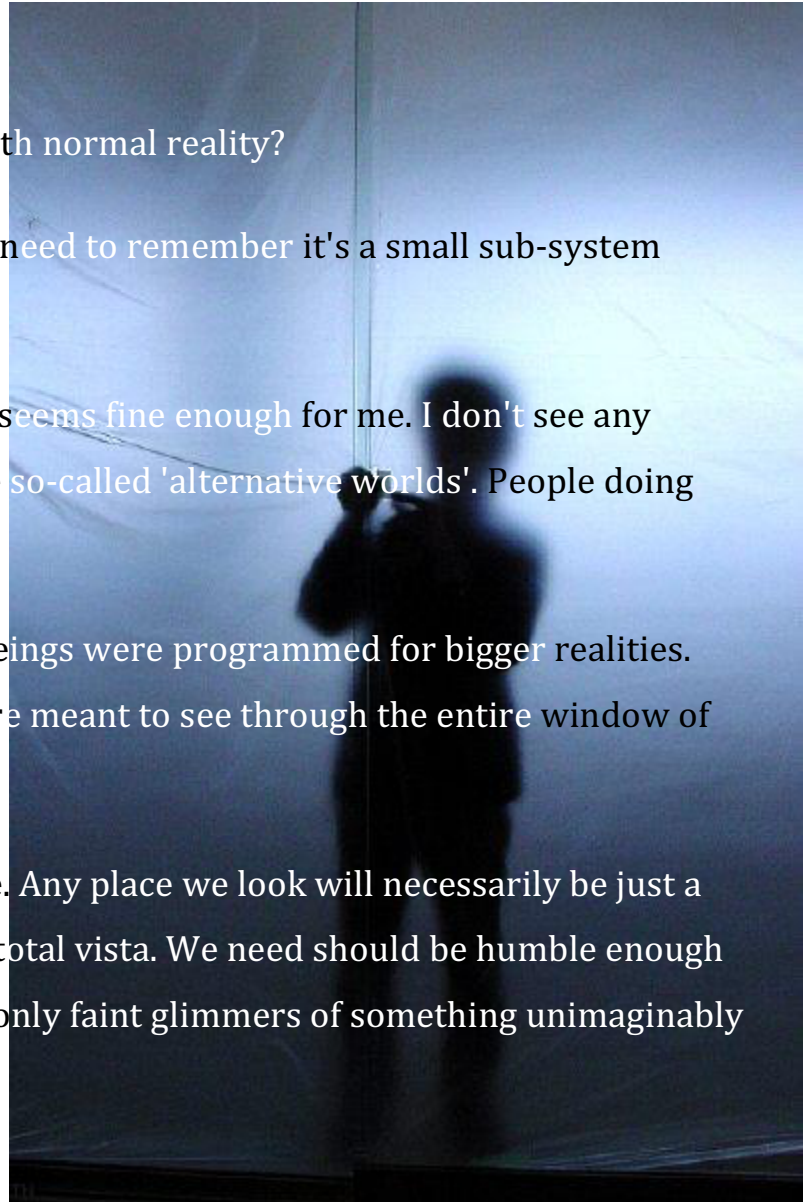

**Wan-Sze:** What's wrong with normal reality?

**Nadia:** Nothing. We just need to remember it's a small sub-system of reality.

**Kasim:** Ordinary reality seems fine enough for me. I don't see any reason to explore so-called 'alternative worlds'. People doing that get weird . . .

**Will:** Ah, but human beings were programmed for bigger realities. Some claim we are meant to see through the entire window of life.

**Kasim:** That's non-sense. Any place we look will necessarily be just a small part of the total vista. We need should be humble enough to accept we see only faint glimmers of something unimaginably immense.
