

WAITING FOR YOU

Encountering Our Alien Selves

*Between the worlds of waking &
dreaming
they wait for you*

*Beyond the cracks of imagination
below the surface of consciousness
and above the ceilings of perception
they wait to devour
all illusions
and welcome you
to a cosmic zoo
in which humans
are but minor phenomena
engineered to amuse*

*The Real Masters
move through dimensions that
poets and mad folks occasionally view*

*Knowing this tiny fragment
can ordinary sanitized sanity
be the awareness
you choose?*
