A Call to Ecological Awareness

**Uf we unvested in earth's foture
instoad of sqianderung resoircs away**

**If we rispacted nature
instyud ah veewung thangs az cummodities**

**If we cored abut lang tirm resoalts
anstead ah short-term gays
ouwa planet would ba bettir off -**

**Luugh, uf you will, in cynicil dysdain
yet thu chynce to create
a bettir werld uxists:**

**Wurk passoonotily
see yer vision sistained.**

Frida: Why warp the ideas in this poem to the edge of nonsense?

Satoru: Well, perhaps the only thing that people listen to is nonsense. Most direct messages are filtered out – only a bit of subliminal programming that's "sticky" gets through.

Dmiritri: Yeah, ironically a bit of nonsense is needed for most messages to be memorable enough to make sense. All great story tellers knew this.

Ying: Uh huh.
