

RAVEN WISDOM: **Insights on the Acumen of Birds**

Ellesha: Aren't we pretty much the same as ravens?

Andrei: How so?

Ellesha: Haven't you observed ravens closely? They are basically scavengers. Most of us are also opportunistic scavengers.

Andrei: (shrugging his shoulders) What's wrong with that?

Ellesha: I'm not moralizing - just observing. Notice how they deal with weaker birds, then compare that to their behavior when stronger animals approach.

Andrei: Okay - they know when to use their beaks and when flap their wings.

Ellesha: (nodding) Perhaps we need to learn the same.
